- Adaptor kits available for wood door applications

CRL®

LAGUNA SERIES SLIDING GLASS DOOR SYSTEM

We have upgraded our popular Laguna Series Sliding Glass Door System to now include an 'Anti-Lift' feature.

Through a combination of additions and very subtle changes, we have improved the performance, safety, and security while still offering a clean, simple look. The Laguna Series Sliding Glass Door System can be installed on glass partitions or directly to the side of a sufficiently reinforced wall. The adjustable top rollers make final adjustments quick and easy, without the need to remove the door. Their smooth operation and solid stainless steel construction minimizes maintenance issues.

NOTE: Laminated glass cannot be used in these systems.

DOOR SYSTEM LIMITATIONS

Maximum Door Weight	100kg
Maximum Panel Width	1.36m
Maximum Panel Height	2.50m
Maximum Track Length	2.64m
