C.R. LAURENCE COMPANY

crlaurence.com | Worldwide Manufacturer and Supplier

Glazing, Railing, Architectural, Construction, Industrial, and Automotive Supplies

An ISO 9001:2008 Certified Company

Quality Built in the U.S.A

ISO 9001 Design • Engineering • Quality

CRL Manufacturing is located in Vernon, California, just five minutes from the corporate headquarters of C.R. Laurence Company and ten minutes from downtown Los Angeles. In our 600,000 combined square foot facilities we build our automotive products under the most strict standards. CRL Manufacturing is a supplier of several Original Equipment Manufacturers, and many of the glass industry's major distributors.

We use progressive and certified ISO9001:2008 manufacturing processes to ensure that we give every product our full attention to detail. Being an ISO9001 Certified company reflects the commitment of our employees. That's your assurance that when you select a product made by CRL Manufacturing you have made the best possible choice.

Ask for Them by Name

The C.R. Laurence brand name means quality in the Automotive Window business. That's why so many major glass distributors, van converters, and installation facilities nationwide offer C.R. Laurence sliders, sunroofs, and van conversion windows to their customers. Our customers know that when they install a CRL product it's going to last the life of their customer's vehicle. They know that the installation will be fast and easy, reducing labor expense and their customer's waiting time. They know that the quality material and workmanship put into a CRL product virtually guarantees there won't be any "call-backs" or complaints to deal with. Finally, businesses know that the advanced design and styling techniques used by CRL has created a window they can be proud to install, and that their customers will find pleasing to the eye. They know all this because the C.R. Laurence name is on the product, and it represents quality throughout. So when it's time to choose a slider, sunroof or van window, ask for the brand name that means something in this industry, C.R. Laurence.

C.R. Laurence Automotive Products is proud to provide you with our TV12A Truck and Van Accents Catalog. It's a showcase of the many fine products we manufacture to increase your motoring enjoyment.

Leadership

C.R. Laurence Company, Inc. has provided new and innovative automotive accessories for more than 40 years. CRL is recognized as the premier manufacturer of sliding rear windows, including the exclusive POWR-Slider, the original electric sliding rear window for pickup trucks. In 1988, Chevrolet began manufacturing trucks with bonded rear windows, completely changing the design and installation requirements of rear truck windows. CRL met the challenge and was the first to introduce bonded rear sliders, recognized as the industry's best. Since the introduction of bonded sliders, C.R. Laurence was also first to introduce sliders for many new trucks including the '94 Dodge Ram, the '94 Chevy/GMC 'S' Series, and the '97 Dodge Dakota. Following these successes, CRL introduced the cutting edge "All Glass Look" Slider for the '97 Ford F-150/F-250, featuring factory-like bolt-in installation and smooth, flush appearance.

Continuing Innovation

CRL's sliders for the 1999+ Chevy/GMC Silverado/Sierra were the first to feature the "Perfect Fit" flexible flange that molds to the body contours and guarantees a customer satisfied fit every time. CRL has expanded this new line of "Perfect Fit" sliders for Chevy/GMC, Ford, Dodge, Toyota, and Nissan.

CRL's latest addition of these popular models is the current model Dodge Ram 1500, with the self-centering frame that provides a flush fit to the cab. Just one more example of CRL's leadership in the slider industry.

Meeting the Needs of OEM's

CRL's ISO9001 certified manufacturing facilities has produced custom windows for major original equipment manufacturers such as General Motors, Ford, Toyota, Navistar, Peterbilt, Freightliner, Bombardier, and John Deere, and we can meet your custom window needs as well. CRL offers versatility in design, and progressive manufacturing processes to produce high quality windows in the shape, glass color, and operating functions that will enhance your vehicles. Our engineers have developed many innovative products, such as our Frameless "All Glass Look" Big Rig Cab Windows with crank-out ventilating panels. We will work with you to provide windows you will be proud to put your name on. For more information, or to discuss your custom window needs, please contact our Automotive Technical Sales Division at Extension 7780, or e-mail automotive@crlaurence.com.

60+ YEARS OF TRUCK SLIDERS

C.R. Laurence is the only manufacturer to offer truck sliding windows to the industry for over 60 model years. We are proud to be the industry leader. Remaining on top of an ever-changing industry is a challenge, and CRL once again meets that challenge with exciting new products. CRL has taken our most popular sliders and created the "Perfect Fit" Flexible Flange Frame. The soft rubber flange of these sliders hugs the body of the vehicle, and guarantees a satisfied customer every time. This slider frame design also fits closer into the opening for that "Flush Glass" look. These new sliders are now available on the Chevy/GMC Silverado/Sierra and Colorado/Canyon, Dodge Ram and Dakota, the Ford F-Series, the Toyota Tundra and Tacoma, and Nissan Frontier and Titan. You can't be left out of the demand for the best sliders on the market. Offer CRL Sliders, and see the difference it makes to your customers.

CRL Traditional Framed Sliders

- **Exact Fit Frames**

Our slider frames are contoured to match the shape of the truck cab, model by model, make by make. Our Deluxe Sliders utilize contoured frames and molded curved glass to achieve a factory appearance.

- **Fade Away Silk Screen Glass Borders**

Some models have silk screened fade away borders to conceal interior trim and pinchweld areas, again to achieve a factory-installed appearance.

- **Vent Weather Guard**

Starting with '94+ Dodge Ram and '97+ Ford F-Series, this feature conceals and protects the interior headliner when the window is open.

- **No Exposed Weep Holes**

Now available on '97+ Ford F-Series Sliders, providing a smooth, sleek appearance.

- **Slimline Frame and Narrow Vertical Stiles**

Allow maximum glass area and increase rear-view visibility.

- **Choice of Three Glass Colors**

Clear, Light Tint, and Solar Privacy Glass is available on most models.

- **Two-Stage Glass Sliding Track**

Track design provides the smoothest sliding operation and reduces wind noise.

- **ABS Interior Trim Covers**

Specifically for '95-'97 Dodge Ram Extended Cab and '87-'96 Dodge Dakota Extended Cab Trucks.

- **Our Exclusive Self-Locking Latch**

Is now standard on all Tri-Vents, making opening and closing a one-finger operation.

- **OEM-Style Appearance**

No exposed frame for a factory-installed look.

- **Installs Just Like the Factory Back Glass**

Utilizes existing fasteners; bolts in just like original equipment.

- **Curved Solar Glass Matches Body Contours**

- **Our Exclusive Self-Locking Latch**

Makes opening and closing a one-finger operation.

- **Narrow Stiles Allow Maximum Glass Area**

CRL "PERFECT FIT" SLIDERS

Another First for CRL - Next Generation Truck Sliders for 2011 and Beyond

CRL has re-invigorated the truck slider market with our newest slider design. The "Perfect Fit" Slider with the Flexible Flange represents a huge step forward in truck slider design and function. Offering you a no-nonsense, trouble-free, customer satisfied fit every time.

CRL has "Perfect Fit" Sliders available now for the most popular models. Chevy Silverado and Colorado, GMC Sierra and Canyon, Ford F-Series, Dodge Ram and Dakota, Toyota Tundra and Tacoma, Nissan Titan and Frontier.

This design allows the bonding area of the frame to set further into the pinchweld area, with less projection on the exterior for that "flush glass look" everyone is asking for.

- Available in Both Manual Tri-Vent and Electrically Operated POWR-Slider Models

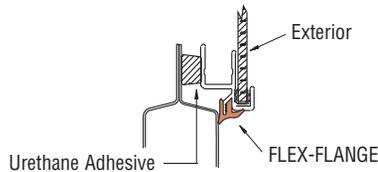

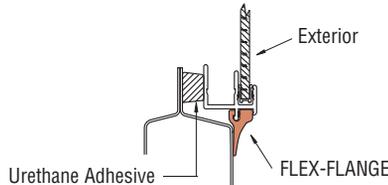

CRL "PERFECT FIT" SLIDERS

Sliders NOW

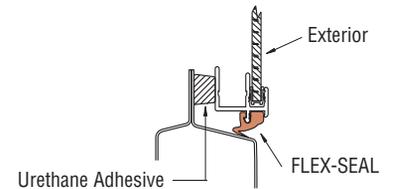

Flex-Flange Design for Chevy/GMC Silverado/Sierra, Chevy/GMC Colorado/Canyon, and Kodiak/TopKick

Flex-Flange Design for Dodge Ram and Dakota, Ford F-Series and Super Duty, Toyota Tundra and Tacoma, Nissan Titan and Frontier

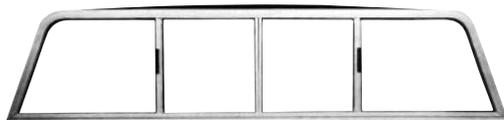

Flex-Seal Self-Centering Frame Design for Dodge Ram Trucks

Not only has the exterior design of sliders been updated for the 21st Century, but CRL has also made installations easier. CRL has added bend-over tabs on the interior side of the frame for fast, easy alignment to the

pinch weld, and to hold the slider in place for the urethane bond to cure. This speeds up the installation time, and makes for a trouble-free installation. Another first from CRL, the leader in slider technology.

Sliders Then

If you follow the transition that truck sliders have made through the last 40 years it's hard to believe the changes. Today's truck sliders are a completely different product than their predecessors. The original slider was designed more for ventilation into non-air conditioned cabs than for style. These sliders had heavy aluminum frames, filler strips, and flat clear tempered glass. Wide vertical stiles and interlocks made these sliders look almost bulletproof. If you see a truck on the road today with one of these old sliders, you really notice the difference when compared

with current model sliders with their slim lines, smooth powder-coated frames and dark curved glass panels.

CRL has always been an innovator in truck sliders, leading the market in new designs, and offering the most complete line in the world. Innovation has brought the truck slider of yesterday to the 21st Century, and CRL carries the torch with the introduction of our new line of "Perfect Fit" Sliders.

• Choice of Glass Colors for Most Models

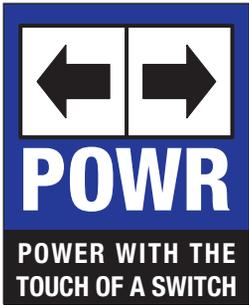

Check out our complete truck slider selection in the following pages and see for yourself why CRL Sliders should be asked for by name when you want the finest truck sliders available.

THE ORIGINAL

FULL POWER TRUCK SLIDER

Quality

POWR-Slider is the top-of-the-line accessory for your pickup. Our exclusive electrically-operated rear sliding window is quality built in our Southern California manufacturing plant to precise specifications. The result is a product that delivers superior fit, operating ease, and long service life.

Safety, Convenience, Luxury

POWR-Slider offers the discriminating truck owner push-button convenience that lets you open or close your rear slider with a simple touch of a dash-mounted switch. No need to take your eyes off the road, or fumble with a latch behind your head, just touch the switch and POWR-Slider opens or closes quietly. POWR-Slider is designed to integrate beautifully with today's luxurious truck cab interiors, as if it were original equipment. The black finish aluminum frame fully surrounds dark tinted or solar privacy glass, and fits in the rear window opening without modifications to the cab interior.

*The Complete Selection of POWR-Slider models for Domestic and Imported Pickups is listed in our **SLIDER APPLICATION CHARTS***

POWR SLIDER

ELECTRIC SLIDING REAR WINDOW

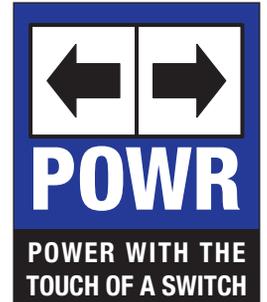

C.R. LAURENCE CO., INC.

PATENT NO. 4,920,698

Extended Cab Trucks

POWR-Slider is very popular with the owners of extended or crew cab pickups, who normally can't reach their rear slider from the driver's seat. POWR-Slider operates easily with one touch convenience, and you never have to leave your seat. What could be more convenient?

Selection

POWR-Slider is available in over 40 models to fit virtually all domestic and import pickups, some back to model year 1967. All models feature solar privacy glass to keep the sun off your back.

CRL TRI-VENT SLIDERS

- **Three Panel, Factory Style Manual Rear Slider**
- **Models to Fit Many Domestic and Import Pickups Using Bonded or Bolt-In Installation**
- **Choice of Up to Three Glass Colors**
- **Deluxe Models Have Curved Glass to Reduce Glare**
- **All Models Have Our Exclusive Self-Locking Latch**
- **"Perfect Fit" Flexible Flange Frames on Many Newer Models**

Tri-Vent's "factory-style" design and advanced features make it your best choice when you want a good-looking, quality-built slider. The low-profile slim line frame gives better rear sight lines than most other sliders. A variety of glass colors, including Solar Privacy, are available on most models. Our Deluxe Tri-Vents have compound curved glass to reduce glare, and silk screened edges to conceal the inner framework. All models have aluminum frames with state-of-the-art powder-coated polyester paint for a trouble-free, long-lasting finish. Another Tri-Vent feature is our exclusive Self-Locking Latch for quick and convenient one-hand locking of the slider.

CRL Tri-Vent is available for trucks with bonded or bolt-in rear windows. You can select a Tri-Vent for most domestic and import pickups. For a rear slider with better than factory quality style and function, insist on the Tri-Vent, manufactured only by C.R. Laurence.

The complete selection of Sliders for Domestic and Import Pickups is listed in our **Slider Application Charts**. See pages AC37-AC40.

CRL DUO-VENT SLIDERS

Traditional Four Panel Design

For the finest truck sliders available, turn to C.R. Laurence. Our Duo-Vent's traditional four-panel styling features fully contoured frames that contribute to its overall thin-profile appearance. Durable black painted frames, tempered glass, and a tight sealing weatherstrip design make this slider an excellent choice for domestic and import pickups.

• **Choice of Up to Three Glass Colors**

- **The 'Original' Four Panel Slider Design Gives the Widest Possible Opening**
- **Models for Both Domestic and Import Pickups**
- **Fully Contoured Black Finish Aluminum Frame With Tight Sealing Weatherstrip**
- **Gasket-Set and Bonded Models Have Tempered Glass and Locking Latches**

CRL PICKUP TRUCK SLIDERS

Restore or Customize Your Special Truck and Show It Off!

- **A Variety of Sliders Unequaled in the World of Trucks
Let's You Add Style and Ventilation to Your Favorite Ride**

Truck owners like to dress up their trucks, and make them their own vision of the "perfect ride." Restoration of classic trucks is a hobby shared by truck enthusiasts and their families. Customizing late model trucks is popular among truck owners young and old. The business of building show trucks for the exhibition of parts and accessories has never been stronger. Everywhere you look, people are investing time and effort into their trucks.

One of the most popular and practical accessories for pickups is the sliding rear window, or 'slider'. With almost 200 different slider models to choose from, there's sure to be a CRL Slider for your favorite pickup. We make it easy for you to fix up your truck with a choice of four panel or three panel manual sliders, or POWR-Slider, the world's first electrically powered rear slider for pickup trucks.

In the following pages we'll show you the variety of CRL Sliders available for your truck. We've grouped them by manufacturer with important dimensions and information relating to cab styles, as well as a selection of glass colors for each slider model.

- **Proven Installation Methods and Expert Technical Assistance**

Just as important as being able to choose the right slider is the ability to install it with a minimum amount of 'hassle'. Our sliders install just like the factory back glass in almost every application. Our expert automotive engineers have spent years improving our sliders, making them the best available. And, we have people who can help make you an expert installer too.

- **Better and More Economical Than the Fixed Factory Glass**

One of the best reasons to install a CRL Slider is that they're more practical than a factory back glass. Compare the price of a fixed back glass from the dealer, and you'll find that dollar-for-dollar our sliders are a better deal. Just try to order a factory back glass for a classic older model pickup. Even if the dealer can find one it'll take time to get, and the price will more than likely be "out-of-this-world." We have a network of distribution warehouses, so more than likely, we can even ship the slider you need the same day you order it. Let the dealers try to match that!

- **Window Parts for Restoring Your Classic Truck**
- **We've Got More Than Just Sliders**

Rear window and windshield gaskets, side window channel and weatherstrips, plus door and window trim fasteners are also available from CRL. It's all part of our selection of items to help you restore your classic truck to "like new" condition.

CRL PICKUP TRUCK SLIDERS

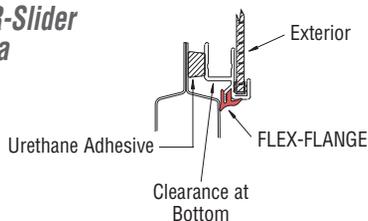

General Motors follows decades of tremendous success in trucks with their full size Chevy Silverado and GMC Sierra pickups. With more power, plus better-than-ever features and styling, they are very popular with truck owners. GM's Colorado/Canyon Trucks continue their popularity as well with owners of mid-size trucks; but as good as they are, CRL has sliders to make them even better!

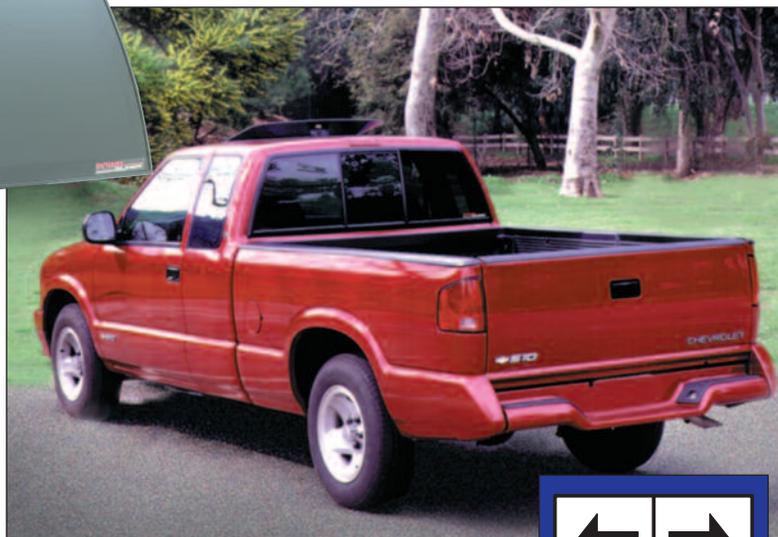

CRL has a complete selection of sliders for GM trucks from 1948 to the present model year. On the next pages you'll see our complete selection of rear sliders, including Duo-Vents, Tri-Vents, and our exclusive POWR-Slider, the world's first electrically-powered rear slider for GM's current models. Best of all, CRL produces the "Perfect Fit" Slider, with its flexible flange for a gap free fit for both the Silverado/Sierra and Colorado/Canyon models.

CRL PICKUP TRUCK SLIDERS

CRL Sliders for Chevy/GMC '88 - '00 'C/K' Pickups

The 880 Series was our original bonded slider, designed to fit the restyled 'C/K' Pickups introduced by General Motors for model year 1988. A departure from the traditional gasket-set sliders of the past, the 880 Series forced installers to learn a whole new process for removing and replacing the back glass in pickups. CRL makes Duo-Vents, Tri-Vents, and our exclusive POWR-Slider for these popular 'C/K' pickups. All feature black powder-coated aluminum frames contoured to fit the 'C/K' perfectly. For the largest opening possible, select our four panel Duo-Vent. Our Tri-Vent Slider has the exclusive Self-Locking Latch for one-handed convenience and the security of positive closure every time. And for the ultimate in convenience, especially in extended cabs, choose the POWR-Slider. Just a touch of the dash-mounted switch operates the quiet Micro-Drive Motor to open or close the unit. There's nothing else like it for your 'C/K' truck.

CRL Duo-Vents, Tri-Vents and POWR-Sliders for New and Older Model Chevy/GMC Pickups

General Motors pickups have changed a lot since the "good old days". Aero styling, air conditioning, and three and four-door options have transformed the old Chevy and GMC pickups. Thanks to CRL, truck rear sliding windows have kept pace!

Our POWR-Slider is the top selling accessory with owners of extended or crew cab trucks. If you desire to operate the slider while the truck is in motion, our POWR-Slider provides finger tip control with the touch of a button. Tri-Vent is a perfect match for the truck owner desiring the greatest visibility with low profile factory styling. The traditional Duo-Vent slider remains a popular choice for owners who want the widest possible opening. Whether your choice is a POWR-Slider, Tri-Vent or Duo-Vent, you can be sure that you're investing in a quality product that will provide motoring enjoyment.

CRL PICKUP TRUCK SLIDERS

Ford's F-Series trucks are the top sellers, and C.R. Laurence keeps pace with smooth, sleek "All Glass Look" Sliders for '97-'03 F-150 and F-250 Regular Duty models. Features such as no visible frame around the window, curved glass in three color choices, and just-like-factory bolt-in installation set this slider apart from the rest!

CRL Sliders for the 2004+ F-150, and 2008+ Super Duty models also offer the latest features, such as deluxe curved glass. Our Self-Locking Latch, exclusive to CRL Tri-Vents, allows easy, one-hand opening and closing, while our POWR-Slider offers the convenience and safety of one touch electric-powered operation. Our traditionally styled four-panel Duo-Vents offer the largest possible opening, and come in models to fit most popular full size and mid-size Ford pickups.

CRL Duo-Vents, Tri-Vents, and POWR-Sliders for New and Older Model Ford Pickups

- **Original Equipment Style Bolt-In Installation for '97-'03 F-150/F-250 Models**
- **Aluminum Frames for Strength**
- **Narrow Vertical Stiles for Increased Visibility**
- **Choice of Up to Three Glass Colors on Many Models**

CRL Sliders for Ford '97-'03 F-150 and F-250

"All Glass Look" With Bolt-In Installation

- Popular Tri-Vent Model with OEM-Style Appearance
- Installs Just Like the Factory Backglass
- Curved Glass Matches Body Contours
- Close-Fitting Tolerance Ensures "Gap Free" Fit

These F-Series trucks have a lot to offer, and our Bolt-in Slider does too! CRL's F-Series Slider offers an "All Glass Look" with no visible frame around the window. Features include curved glass technology, black silk screen frit edges, and our exclusive Self-Locking Latch for convenient one-hand operation. This model installs just like the original factory backglass!

For the ultimate in luxury and convenience, choose POWR-Slider, with its dashboard-mounted switch and smooth, quiet Micro-Drive motor. POWR-Slider is the perfect complement to today's trucks. There is nothing else like it!

'97-'03 FORD F-150 AND F-250 SLIDERS

CAT. NO.	MODEL	GLASS
EPC990S	Deluxe POWR-Slider	Solar Privacy
ECT990S	Deluxe Tri-Vent	Solar Privacy

ECT990B	Deluxe Tri-Vent	Clear

Minimum order: 1 each. Also fits 2002 Lincoln Blackwood.

CRL Sliders for Ford 2004+ Ford F-150 Pickups

- Fully Contoured "Perfect Fit" Frame Fits Cab Without Modifications
- Deluxe Curved Glass

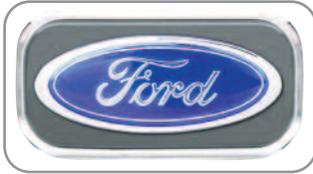

"Perfect Fit" Sliders for the new Ford F-150 have the exclusive Flexible Flange that provides a customer satisfied fit every time. The flexible soft rubber flange hugs the contours of the body, conceals the weep holes, and helps to reduce road noise. Look for faster installations of CRL Sliders with our bolt-in frame, just like OEM.

CRL PICKUP TRUCK SLIDERS

CRL Sliders for Ford '99+ F-250 / F-350 / F-450 / F-550 Super Duty Trucks

- **The BIG Back Sliders Made Exclusively for Super Duty Ford Trucks**
- **Available in Both Manual Tri-Vent and Electric POWR-Slider Models**
- **Fits Cab Without Modifications**
- **Curved Solar Privacy Glass**

The '99+ Ford F-250/F-350/F-450/F-550 Super Duty Trucks have the largest backglass of any domestic or import pickup, and CRL has the perfect sliders to replace the OEM glass. Both our Deluxe Tri-Vent and POWR-Slider feature curved solar privacy glass surrounded by a black finish frame that fits without modifications. The manual Tri-Vent has our exclusive Self-Locking Latch, while the famous POWR-Slider features electrically-powered operation. **Note:** Factory Slider Replacement for model years '99 - '07 requires new gasket. Specify Cat. No. WBL450. For model years '08+, urethanes and primers are required for install.

- **Exclusive Self-Locking Latch on Deluxe Tri-Vent**

Since the introduction of the full size Ram in 1994, sales of Dodge pickups have reached new levels. Dakota sales have also been strong, showing that there is definitely a new feeling at Dodge.

C.R. Laurence echoes this feeling with a complete selection of Dodge rear sliders. From the mid-1960's to the present, and into the future, C.R. Laurence rear sliders can help Dodge owners enhance and enjoy their trucks to the fullest!

CRL PICKUP TRUCK SLIDERS

The Dodge Ram set new standards for pickups when it was first introduced in 1994. As tough as ever, the Ram showed that a pickup could also be sleek, smooth, and quiet. C.R. Laurence sets new standards with our current generation Dodge sliders, building quality into each and every model. These Ram sliders offer features unheard of just a few years ago, such as curved glass with a silk-screened frit edge, bonded installation, and our Tri-Vent's exclusive Self-Locking Latch. Our POWR-Slider goes even further, offering Dodge Ram owners the safety, convenience, and luxury of electric-powered rear slider operation. Both are now made with the "Perfect Fit" Flexible Flange frame that hugs the contours of the cab.

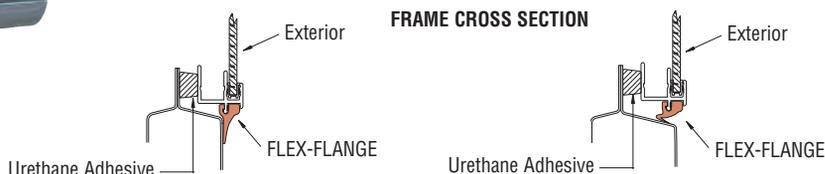

CRL POWR-Sliders and Tri-Vents for '94+ Dodge Ram Pick-ups

- **New "Perfect Fit" Flexible Flange Frame**
- **Deluxe Curved Glass and Powder-Coated Aluminum Frames**

Ram, Dakota, and D-50 Truck Sliders Back to '72

CRL Dodge truck sliders include the original Duo-Vent four panel slider, the progressive three panel Tri-Vent, and our "top-of-the-line" electrically-operated POWR-Slider rear sliding window.

Dodge has a history of making tough (if not always beautiful) trucks. Trucks that created a loyal following of Dodge owners that would "drive'em til they dropped", then fix them up and drive them some more.

We can make your classic Dodge truck more comfortable and stylish with a selection of sliders for Dodge full size, mid-size, and mini pickups made since 1972. All are built to our tough standards for fit and finish, and are designed to replace the original backglass without modifications to the cab. For quality and style-conscious Dodge truck owners, CRL offers the best slider choices.

POWR-Slider

- Quick and Quiet Micro-Drive Motor
- Slim Line Three Panel Design
- Dark Tint or Solar Privacy Glass Maintains Cab Comfort
- Compound Curved Glass and "Perfect Fit" Frame on All Newer Model Years

CRL PICKUP TRUCK SLIDERS

Import pickups have come a long way since they were first introduced to the American market, and CRL Sliders have kept up every step of the way. Our slimline main frame and narrow vertical stiles make for a smooth, sleek look. Enhanced weatherstrips and seals keep away wind noise and water. Powder-coated finishing means long-lasting beauty. All Tri-Vents feature our exclusive Self-Locking Latch for convenient one-hand operation. The four-panel Duo-Vent gives you the largest possible opening. Our unique Micro-Drive Motor provides smooth and quiet electric operation for the POWR-Slider. Whichever model you choose, CRL provides the state-of-the-art in sliding rear windows for import pickups.

CRL Duo-Vents, Tri-Vents and POWR-Sliders for New and Older Model Import Pickups

- Models as Far Back as 1973
- Slimline Frame and Vertical Stiles
- Install Just Like the Factory Glass
- Exclusive Self-Locking Latch on Tri-Vents
- Electric Operation on POWR-Slider

CRL SPECIALTY SLIDERS

"Oldies" Sliders

- Available for Trucks Back to 1948
- Update Old Slider in Your Restoration Vehicle
- Models Available With Clear, Light Tint or Solar Privacy Glass

CRL offers the most extensive line of "Oldies" Sliders. These sliders offer you the quickest and easiest way to update that older model aluminum slider with a new powder-coated black-framed slider that your restoration vehicle deserves. We cover all the popular trucks, some dating back to 1948. All are designed to fit the factory gasket and install without modification to the cab. Models with clear, light tint, and solar privacy glass come standard with black finished frames. All have locking latches for security. Only CRL offers you a selection like this. See the slider application chart on pages AC37-AC40 for a complete listing of "Oldies" Sliders. Part numbers for all "Oldies" Sliders begin with TSW.

"Big Rig" Sliders

- Slider Convenience and Increased Cab Ventilation for Many Popular Big Rig Trucks

With CRL Big Rig Sliders cab occupants enjoy a comfortable, flow through breeze. All Big Rig Sliders fit in the factory gasket without modification to the cab. Each slider has a traditional four panel, black finish frame surrounding clear glass**, and a locking latch for security.

CRL TRUCK SLIDER NUMBERS

CRL's Catalog Numbers are meant to help you determine the slider configuration and installation type. See the chart below for explanations that will assist with your orders and installations. Starting with older sliders and working towards the newer models, you will see how easy it is to know what you are ordering, plus what tools and products will be required.

DESIGNATIONS	SLIDER TYPE	DESCRIPTION OF SLIDER	INSTALLATION
TSW	Duo-Vent	Traditional Four Panel Slider	Gasket Set
EDV	Bonded Duo-Vent	Same as DVW, but bonded to body	Urethane Bonded
BRW	Big Rig Truck Slider	Slider for large commercial trucks	Gasket Set
TRV	Tri-Vent	Three Panel Slider	Gasket Set
TRC	Deluxe Tri-Vent	Same as TRV, only with curved glass	Gasket Set
ETRV	Bonded Tri-Vent	Same as TRV, but bonded to body	Urethane Bonded
ECT	Deluxe Bonded Tri-Vent	Same as ETRV, only with curved glass	Urethane Bonded
PS	POWR-Slider	Electrically powered Tri-Vent	Gasket Set
PSC	Deluxe POWR-Slider	Same as PS, only with curved glass	Gasket Set
EPS	Bonded POWR-Slider	Same as PS, but bonded to body	Urethane Bonded
EPC	Deluxe Bonded POWR-Slider	Same as EPS, only with curved glass	Urethane Bonded

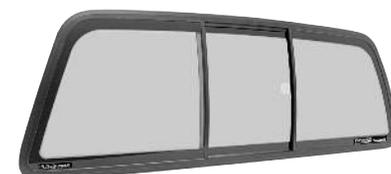

Minimum order: 1 each. **NOTE:** The ECT990 and EPC990 Series for Ford require butyl tape in place of urethane, and is supplied with these sliders.

• Replacements for Original Equipment or Aftermarket Latches

Backslider Replacement Latches are no longer hard to find. We have replacement latches for all pickup truck sliders, three or four panel types. Whether you have one of our sliders, or another brand, we can fill your needs. DVL2 latches fit most CRL Sliders. DVL4 is the replacement for the CRL Self-Locking Latch. DVL5 is the replacement latch for the original equipment '95-'04 Toyota Tacoma Slider and some earlier models of Toyota trucks. DVL6 is the replacement latch for original equipment '94-'00 Chevy/GMC 'C/K' three panel backsliders. RL50 and RL100 are generic latches, and fit a variety of factory and aftermarket slider brands. All latches are made from durable materials and, when mounted properly, will help secure your truck when the slider is closed. Minimum order is one each.

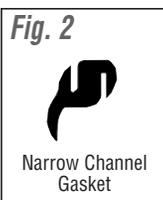

CRL Pickup Truck Replacement Backlite Gaskets

• Quick Replacement of Worn Gaskets for Many Popular Domestic and Import Pickups

Many times you will need to replace the original equipment gasket when installing a new backlite or slider. These Backlite Gaskets are sized to replace the OEM gaskets. Gaskets are available for most popular domestic and import pickups.

CRL Pickup Truck Gasket Information

Some pickups are equipped with a wide channel gasket (Fig. 1), on original equipment sliders. These are not acceptable for installation of CRL Truck Sliders, and must be replaced with a narrow channel gasket, such as those shown in (Fig. 2).

CRL SPORT UTILITY VEHICLE WINDOWS

Side-Sliders for SUV's

2 Panel Side-Slider with Mitered Corners

4 Panel Side-Slider with Radius Corners

- **Replace Original Equipment Fixed Side Glass Without Modifications**
- **Available for Popular Older Model Chevy/GMC and Ford**

The CRL Side-Slider replaces original equipment fixed side glass in many older model sport utility vehicles. They fit the original gasket and opening, so no modifications are required for installation. These fully framed sliders have 28% dark gray tinted, D.O.T. approved glass surrounded by a black finish extruded aluminum frame. Sliding panels operate easily: open for cooling ventilation; closed for security. Locking latches are included for safety. The Side-Slider's rugged construction will withstand rough off-road use, and full weatherstripping will prevent rattling while keeping drafts out of the interior.

CRL Heavy-Duty Folding Windshield Stand

- **Made of Sturdy 1-1/4" (32 mm) Steel Tubing**
- **Cushioned Work Surface and Non-Slip Feet**
- **Folds for Easy Transport**
- **Adjustable Work Height**
- **Great for Prepping Sliders for Installation**

CAT. NO.	SIZE
2011098	Large
2011099	Extra-Large

Minimum order: 1 each.

The CRL Heavy-Duty Folding Windshield Stand is constructed of 1-1/4" (32 mm) diameter steel tubing. That makes it sturdy enough to support even the largest of windshields or rear sliders while being light enough to fold and transport easily from job to job. The height of the stand is adjustable so you can work comfortably. Non-slip feet and a cushioned work surface make this the Windshield Stand of choice for auto glass professionals. Made in the U.S.A.

CRL Pipe Handle Cut-Out Knife

CP253	Hook Tool

Minimum order: 1 each.

CRL TRUCK SLIDER TOOLS AND SUPPLIES

CRL Wildcat Pneumatic Cut-Out Knife

- **Designed for Use on Urethane Bonded Glass**
- **Cuts Through Hardened Urethane With Ease**

The Wildcat Pneumatic Cut-Out Knife is a lightweight, variable speed air tool that delivers up to 20,000 oscillations per minute and, when used with the Wildcat, Fein or CRL Oscillating Cut-Out Blades, cuts through hardened urethane with ease. The Wildcat Tool's compact design makes it easy to operate in tight quarters, and the hex blade mounting collar allows for variable positioning of the blade. The speed control trigger is equipped with a safety stop to prevent accidental starts.

CRL carries a complete line of air compressors and accessories, filters, oilers, and lubricants for use with the Wildcat Knife, plus a wide selection of Wildcat, Fein, and CRL Oscillating Cut-Out Blades.

NOTE: The tool operates between 75 psi minimum and 90 psi maximum air pressure, so a regulated air supply is essential. An air supply or compressor that delivers a minimum of 6.3 cfm and 90 psi with a 20 gallon tank is required for optimum performance.

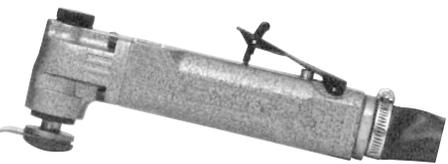

CAT. NO.	DESCRIPTION
AK20T00L	Wildcat Air Knife Only
AK10*	Wildcat Air Knife Kit

Minimum order: 1 each. *With 2 Blades, Case, Sharpening Stone

CRL POWR-Cat Cut-Out Knife

- **Heavy-Duty Air Motor**
- **Longer Housing for Ease of Handling**

The constant search for quality urethane cut-out systems has led CRL to develop the POWR-Cat Cut-Out Knife. This heavy-duty pneumatic tool features a large, industrial grade air motor which delivers 20,000 oscillations per minute, plenty of power for your toughest cut-out needs. The long housing of the tool provides excellent balance and control while in use. The hex blade mounting collar gives the POWR-Cat the versatility of being able to use a wide range of blades, including Wildcat, Time Saver, Fein, and CRL Oscillating Blades.

Shown With AKB200 Wildcat Blade

CAT. NO.	DESCRIPTION
AK60T00L	POWR-Cat Pneumatic Tool Only
AK70	POWR-Cat Pneumatic Knife Kit

Minimum order: 1 each.

CRL POWR-Cat Tool Kit

- **A Complete Cut-Out System**
- **CRL Quality With Added Power**

The AK70 POWR-Cat Tool Kit gives you a complete cut-out system in a rugged carrying case. The mainstay of the Kit is the POWR-Cat Tool. The Kit includes: The AK60T00L, one each of AKB200, AKB300, RD079, and RD081 blades, one sharpening stone, one hex key wrench, quick disconnects, air filter moisture trap, in-line oiler, pneumatic tool oil, 25' coiled air hose, one roll 2" duct tape, one roll 1" blue securing tape, one roll 2" blue securing tape, and a high impact carrying case.

AK70 Kit

CRL Fein Precision Cut-Out Knife

- **A Safer, More Powerful, Faster Cutting Fein Knife**

The new Fein Knife has more power, plus it's slimmer for better clearance, and has an improved speed control that adjusts to stay constant under light or heavy loads. All mechanical wear parts operate in an oil bath, and the tool is vented to run cooler for longer life. All this makes the Fein Knife the time and labor-saving way to remove bonded automotive glazing. A variety of Fein Blades are available. All have twelve-sided mounts so you can adjust blade angle as required for each specific vehicle.

CRL TRUCK SLIDER TOOLS AND SUPPLIES

CRL POWR Primerless 301HV High Viscosity Urethane Adhesive

- **Primerless to Auto Glass Frit**
- **Rates Non-Conductive, High Modulus**
- **Accelerated Cure**
- **Part of the LYNX Services Program**

Primer

CRL Primerless 301HV High Viscosity Urethane is a high quality adhesive that passes or exceeds the requirements of U.S. Federal Motor Vehicle Safety Standards 208, 212, and 216, as well as OEM specifications. With over 1,000 psi of tensile strength and 550 psi lap shear at ultimate cure, PP301HV is one of the safest and strongest urethanes offered for the aftermarket. It's the perfect urethane adhesive for bonded back slider installations.

MODEL	DESCRIPTION	CONTENTS	QTY/CASE
PP301HV	Urethane	10.5 Fl. Oz. (311 ml)	24
PP3MP	Primer	6 Fl. Oz. (177 ml)	6

Minimum order: 1 each. **NOTE:** For the best possible installations, we recommend you always clean and prime any bare metal scratches and slider frame with Urethane Primer. By using both of these products, the strongest bond possible will be attained.

CRL POWR BOND High Viscosity Urethane Adhesive

- **Easy Gunning**
- **Fast Curing**
- **Screw-On V-Cut Nozzles**

Primer

CRL POWR BOND High Viscosity Urethane is a quality adhesive that passes or exceeds the requirements of U.S. Federal Motor Vehicle Safety Standards 208 and 212.

It is an excellent adhesive for the installation of bonded sliders. As more and more new trucks are now using bonded glass as part of their structural integrity, it is important you use an adhesive that will secure the slider well enough to meet OEM specifications.

MODEL	DESCRIPTION	CONTENTS	QTY/CASE
1217349	Urethane	10.5 Fl. Oz.	12
1214006	Primer	4 Fl. Oz.	6

Minimum order: 1 each. **NOTE:** For the best possible installations, we recommend you always clean and prime any bare metal scratches and slider frame with Urethane Primer. By using both of these products, the strongest bond possible will be attained.

CRL Slider Helper

- **Speeds Slider Installation Times**

CRL's Slider Helper Installation Tool will speed your installation time and cut your labor costs. Slider Helper saves from having another installer hold the slider in place while you apply the retainer clips on the interior. Easy to use, just insert between the cab and the bed of the truck, adjust the height to center the pads on the middle of the fixed panels, and then pump the handle until contact with the glass. Minimal pressure is required to hold the slider in place. Minimum order is one pair.

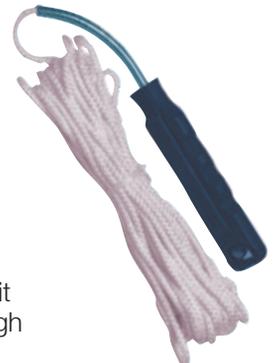

CAT. NO. BST1

CRL Rope Insert Tool for Rubber Gaskets

- **Time and Effort Saving Tool for Installing Rubber Gaskets**

Use our Rope Insert Tool to insert the rope into the groove of rubber backlite gaskets to make the job easier than ever. The contour-grip plastic handle feeds rope through its stem as you pull it around the gasket, and has enough sturdy rope to fit around even the largest backlites or rear truck sliders. Minimum order is one each.

CAT. NO. RT752

CRL TRUCK CAP ACCESSORIES

CRL Accordion Boot Seals

CRL offers two versions of the Accordion Boot Seal for weatherproofing the access between the truck cab and the camper shell. Order the slider to camper shell seal (ED5382RL) if the camper shell does not have a Boot Slider installed. Order the slider to slider seal (ED5381RL) if two Camper Boot Sliders are used. 15 feet of seal per roll. Minimum order is one roll.

CRL TRUCK CAP ACCESSORIES

CRL Load Rails

- Applications for Full Size and Smaller Trucks to Increase Cargo Space and Carrying Capacity of Truck Caps
- Ideal for Bulky Items (Up to 200 Pounds)
- Black Electrostatic Powder-Coat Finish
- Available for Vans and Trucks

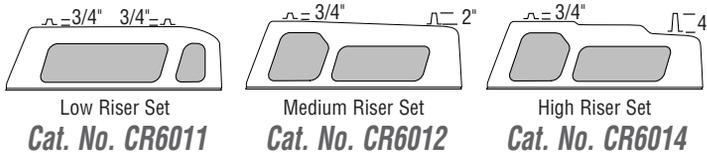

Our Load Rails are made of extruded aluminum with black electrostatic powder-coat finish. Load Rails include steel "tie downs" bolted to the ends to keep the load from sliding, and PVC inserts to help protect loads from being damaged. Mounting Legs are made of aluminum extrusion with black electrostatic powder-coat finish, and are available in three heights to accommodate the variety of camper shells on the road. Mounting Legs must be ordered separately from Load Rails.

CAT. NO.	DESCRIPTION OF SET

CRL CONVERSION WINDOW FEATURES

Door Windows

Available Door Window Styles:

T-Slider, Half Slider, and Fixed Glass

A large selection of windows for hinged and sliding doors to accommodate your needs.

Match Vehicle Body Contour

Door Windows are contoured to vehicle profile for a perfect fit and easier installation.

Bay Windows

Available Bay Window Styles:

T-Slider, Vertical Lift Sliders, Standard, Maxi, and Mini Van Fixed Bays

A wide variety of styles provides freedom and versatility for conversion design concepts.

Improved Drainage

A combination of 15° sloped sill design and paired weep holes for improved drainage.

Stainless Steel Accent Stripe

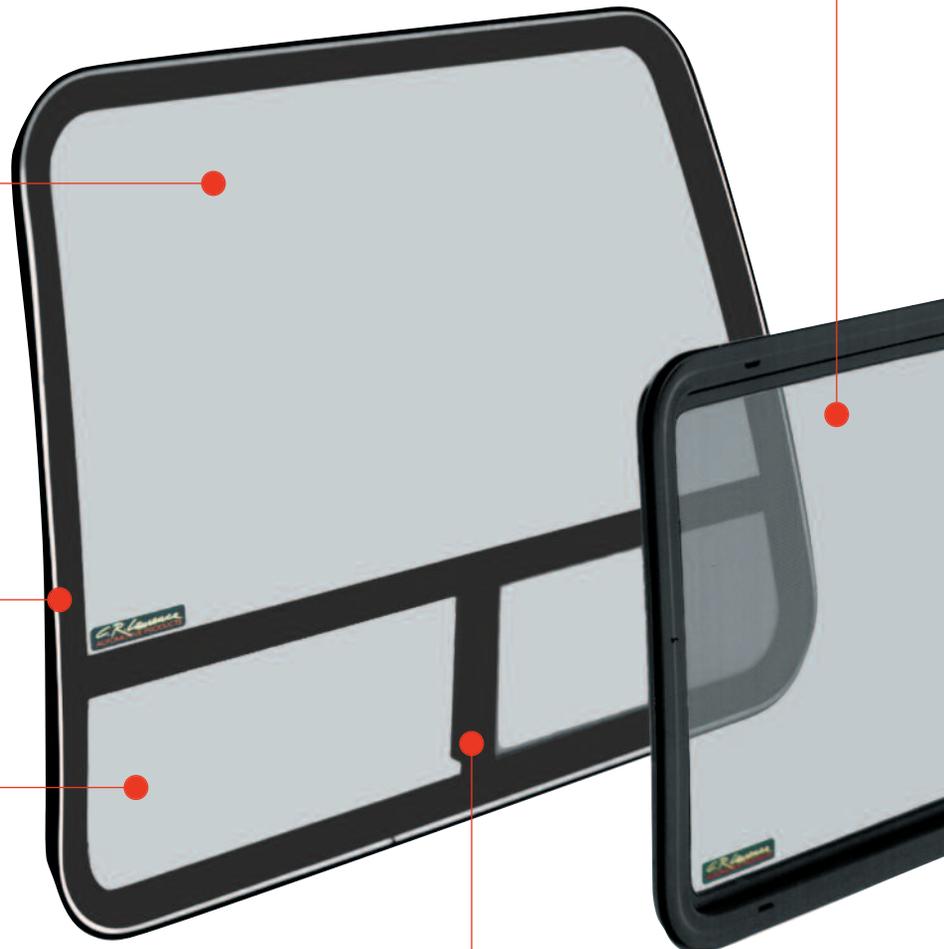

Accent Stripe on some models complements other trim and offers an alternative look.

Dark Solar Privacy Tinted Glass

Enhances appearance of van while contributing to interior comfort.

Sturdy Latching System

Our latching system combines ease of operation with secure latching and long service life.

C.R. LAURENCE COMPANY

AC48 | crlaurence.ca crlaurence.com.au crlaurence.co.uk crlaurence.de crlaurence.eu

crlaurence.com

QUALITY FEATURES THAT SET C.R. LAURENCE WINDOWS APART FROM THE REST

Slim-line Frame and Small Radius Corners

The slim frame is less intrusive on the appearance of the vehicle, and the small radius corners fit most factory indents.

Removable Screens

Simplifies maintenance, provides pass through option and excellent ventilation for all types of environments.

RV and Custom Windows

Available RV Window Styles:

T-Slider, Vertical Lift Sliders, Top Slider, Half Slider, and Fixed Glass

A wide variety of styles provides freedom and versatility for design concepts and specification fulfillment, eliminating the need for multiple suppliers.

A Variety of Glass Specifications Available

Your design options are increased by the selection of glass options available for all custom windows.

Built-In Setting Blocks

Installation blocks eliminate the tedious adjustments usually needed during the installation process to assure proper alignment, making installation easy and fast.

Welding Vinyl Glazing

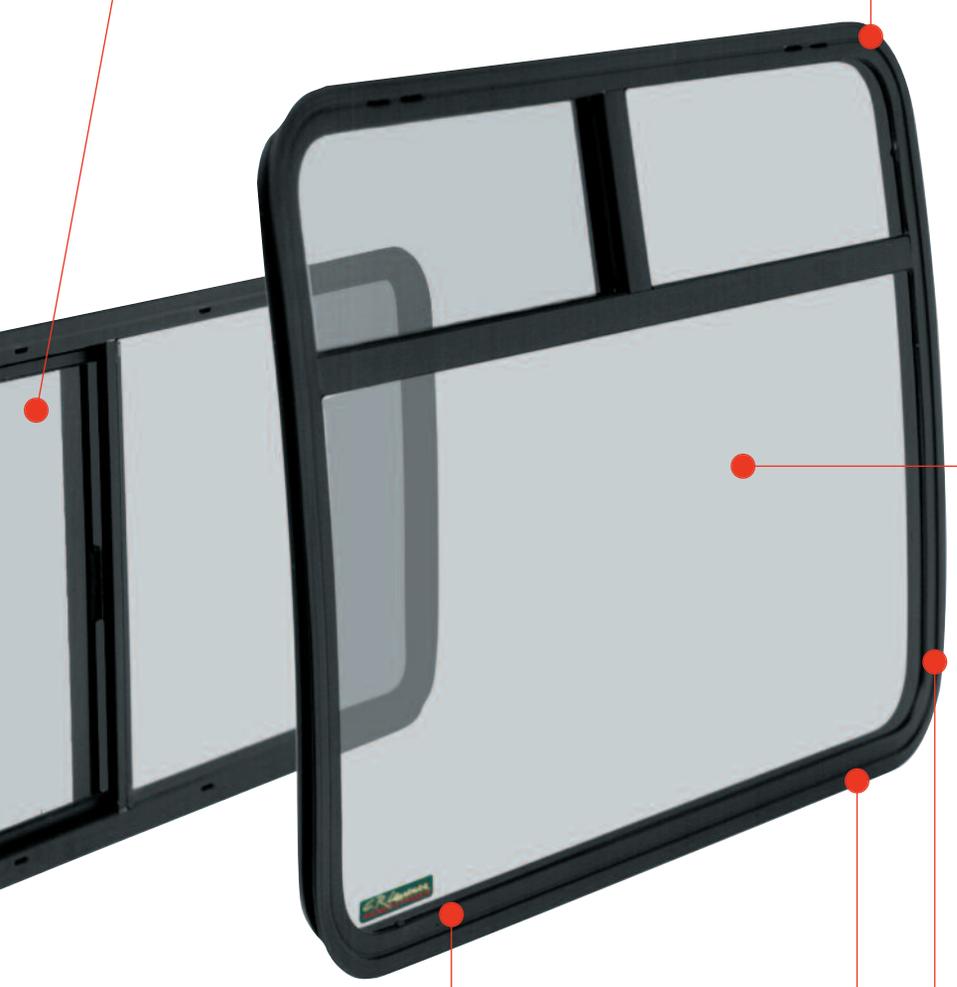

All windows are manufactured with welded vinyl glazing gaskets that eliminate creep and shrinkage.

Large Selection of Clamp Rings Available

We manufacture clamp rings to fit walls from 1/8" to 2-1/4" thick.

High Quality Paint Finish

We have our own high quality powder-paint line to give our windows years of low maintenance service life without finish failure.

CRL SPRINTER VAN "ALL GLASS LOOK" WINDOW

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

- "All Glass Look" Frames
- Solar Privacy Glass
- Uses OEM Stamping for Cut Line

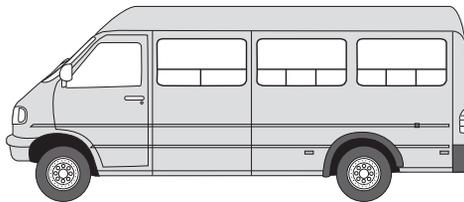

CRL has "All Glass Look" Windows for the Dodge/Mercedes/Freightliner Sprinter Van from 2001 to current. They are the perfect accent to complement the aerodynamic styling of the Sprinter.

These windows have silk-screened black fade edges with Solar Privacy Glass that goes right to the black powder-coat finished frame edge for a flush look. The entire unit is contoured to match the sidewall or door, making installation as simple as a conventional fully framed window.

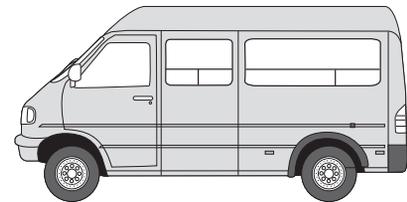

Our 2001-2006 and 2007+ Sprinter Van Windows are configured to fit within the OEM stampings and provide a customized OEM look. Whether converting the Sprinter for commercial or recreational use, CRL "All Glass Look" Windows are the right choice.

CRL "ALL GLASS LOOK" VAN WINDOWS

- Models for Chevy/GMC Vans
- Matches Factory Flush Look
- Contoured to Match Side Walls and Doors

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

The continuing trend in van windows is CRL's "All Glass Look" selection for current model Chevy/GMC full size vans. They are the perfect accent to aerodynamic van styling, with dark solar glass that goes right to the edge for a flush look. Interior structural framing has a black powder-coat finish, concealed from outside view by the silk screened black fade edge of the glass. The entire unit is contoured to match the side wall or door, making installation as simple as conventional fully framed windows. Our T-Vent Bay Windows feature state-of-the-art operating hardware on the opening panels. Models are available to fit the forward and rear driver and passenger side panels, plus sliding and hinged side or rear doors.

NOTE: The dimensions shown for our Van Windows are "Cut-Out" sizes at the longest point, side-to-side and top-to-bottom. To determine their outer frame dimensions please refer to the table below.

VAN WINDOW SERIES	OUTER FRAME DIMENSION
FWXXXX	Add 1-1/4" to Cut-Out
VW1XXXX	Add 1-1/4" to Cut-Out
VW2XXXX	Add 1-1/4" to Cut-Out
VW3XXXX	Add 1-1/4" to Cut-Out
VW4XXXX	Add 3/4" to Cut-Out
VW5XXXX	Add 3/4" to Cut-Out
VW6XXXX	Add 3/4" to Cut-Out

"All Glass Look" Van Windows are Available for Installation in Rear and Side Doors, Plus Driver and Passenger Side Panel Locations

- Dark Solar Privacy Glass With Silk Screened Black Fade Edge

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

CRL "ALL GLASS LOOK" VAN WINDOWS

'97+ Chevy/GMC Full Size

- High-Tech "Aero" Look
- Dark Solar Privacy Glass
- Silk Screen Frit Edge
- Contoured to Match Van Walls

These windows combine the features, ventilation and installation ease of van conversion windows with the high-tech "aero" look of factory bonded glass. With their contoured dark solar privacy glass, silk screen frit edge, sturdy powder-coated frames, and smooth reliable hardware, CRL's "All Glass Look" Van Windows are the "cutting edge" in beauty, quality, and value!

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.

NOTE: Cut-out dimensions are provided. To determine which window to order for replacement purposes, deduct 1-1/4" from the overall outside frame dimensions of your existing window to determine the cut-out size as shown on this page. All dimensions are taken at the longest point side-to-side and top-to-bottom.

'97+ Full Size Chevy/GMC Conventional Framed Van Windows

- **The Industry Standard Design**
- **Popular Replacement Sizes Contoured to Match Side Walls and Doors**
- **Dark Solar Privacy Glass**
- **T-Slider Bay Windows are Screened**

CRL not only provides you with state-of-the-art design "All Glass Look" van windows, but continues to supply the industry with the conventional framed windows that have been the industry standard for years. CRL's Conventional Framed Van Windows not only offer the value prices you need to compete, but also offer a source for replacement windows for those thousands of vans with windows that fit within these dimensions. Please check the charts on the opposite page for the windows you need, or look to our full line of windows shown on pages AC73 to AC79.

Use CRL as Your Complete Source for New Conversion and Replacement Van Windows

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between, C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

'97+ Chevy/GMC Full Size Vans

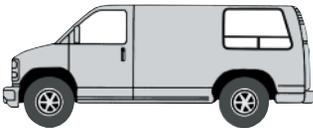

- **Dark Solar Privacy Glass****
- **Black Finish Powder-Coated Aluminum Frame**

Chevy/GMC van conversions are popular. American families are realizing the versatility of owning one of these vans in the full conversion mode. Cargo Vans sold into the commercial trades require side windows for lower insurance rates and safety. CRL can provide all these windows for your customers.

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.

Driver's Side Windows

These windows are specific to the left side of the van.

DRIVER'S SIDE REAR PANEL

CAT. NO. T-SLIDER	CUT-OUT		ANGLE	WALL
	W	H

CRL MINIVAN WINDOWS

- Fixed and T-Slider Models
- All Have Dark Solar Privacy Glass
- Powder-Coated Black Finish Frames
- Optional Stainless Steel Accent Frames

Few would have guessed that when Chrysler introduced the minivan back in 1984 that they would become so popular. Families have traded in the traditional station wagon for them, and businesses see them as an economical replacement for full size vans used as delivery and service vehicles. Even the van conversion industry has embraced the minivan as downsized campers. There are millions of minivans on the road today, and they have owners who want to maximize the interiors. The first, and most popular van conversion accessories are Bay Windows, and CRL makes them for the most popular Chevy/GMC, Ford, and Dodge Minivans. You'll find that choosing the right windows is easy because we have organized them by make and body position, with a complete listing of available features and sizes.

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

CRL "ALL GLASS LOOK" VAN WINDOWS

- Models for E-Series Vans
- Matches Factory Flush Look
- Contoured to Match Side Walls and Doors

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

CRL's "All Glass Look" Van Windows for current model Ford full size vans are the perfect accent to aerodynamic van styling, with dark solar privacy glass that goes right to the edge for a flush look. Interior structural framing has a black powder-coat finish, concealed from outside view by the silk screened black fade edge of the glass. The entire unit is contoured to match the side wall or door, making installation as simple as conventional fully framed windows. Our T-Vent Bay Windows feature state-of-the-art operating hardware on opening panels.

"All Glass Look" Van Windows are Available to Fit the Forward and Rear Driver and Passenger Side Panels, Plus Sliding and Hinged Side or Rear Doors

NOTE: The dimensions shown for our Van Windows are "Cut-Out" at the longest point, side-to-side and top-to-bottom. To determine their outer frame dimensions please refer to the table below.

VAN WINDOW SERIES	OUTER FRAME DIMENSION
FWXXXXX	Add 1-1/4" to Cut-Out

- High-Tech "Aero" Look
- Dark Solar Privacy Glass With Silk Screen Frit Edge**
- Designed to Match Contours of Van

CRL has "All Glass Look" Van Windows for '92+ Ford Vans. These windows offer the "Aero" design features now being used by OEM's: clean sight-lines, reglazable panels, and narrow frame exposures to the exterior. All opening vents have pop-out latches.

Driver's Side Windows

CRL '92+ Full Size Ford Conventional Framed Van Windows

Bay Windows

In 1992 Ford changed the body lines of their full size vans. The sloping roof line has enabled C.R. Laurence to design windows with more angles, giving a more attractive appearance. All windows are available with standard dark solar privacy glass. Some Bay Windows are also available with bronze solar reflective glass. All windows have black finish frames, some with the optional stainless steel accent stripe.

Door Windows

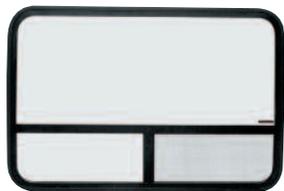

Our Door Windows feature a slim, black painted aluminum frame, small corner radius, and standard dark solar privacy glass. Door Windows come in three configurations: Fixed, Half Slider, and T-Slider, and are available with various clamp ring sizes to enable you to choose the installation and appearance best suited for your Ford van.

Standard Bay Windows

- Powder-Coated Black Frame
- Also Available With Accent Stripe

Made to fit standard and extended wheelbase vans. All have dark solar privacy glass.*

Driver's Side Forward

Driver's Side Rear

Accent Frame Passenger Side Rear

Door Windows

- Half Sliders, T-Sliders, and Fixed Glass Styles
- Fully Contoured Dark Solar Privacy Glass*

Van Door Windows increase visibility and provide light for cargo vans. They complement our Bay Windows when used as a complete installation.

Sliding Door Fixed Window

Fixed Rear Door Window

Sliding Door Half Slider

40% Fixed Side Door Window

Sliding Door T-Slider

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.
 * Please verify glass color when ordering replacements. 31% gray will be discontinued upon depletion and will be superseded by Solar Privacy 28%. This glass color allows less cabin heat build up and provides your customer with additional comfort.

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

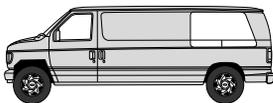

CRL VAN WINDOWS

Whether you are just adding windows to a cargo van for increased visibility, or doing a complete van conversion, CRL has the windows to complete the job. Choose our Accent Frame Windows for that custom look, or our Standard Windows. Both will provide improved ventilation and visibility for passengers. Our large selection is shown below, or check our listing of additional windows on pages AC73-AC79.

- **Dark Solar Privacy Glass****
- **Black Powder-Coated Frame**

CRL '75-'91 Ford Full Size Vans

Bay Windows

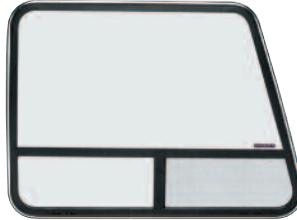

- **Black Powder-Coated Aluminum Frame**
- **Some Available With Accent Stripe**
- **Contoured Dark Solar Privacy Glass***

Bay Windows for Ford Vans are available in Fixed and T-Slider configurations. Listed at right are some suggested styles for the full size '75-'91 Ford Van. However, you may wish to choose other styles from our selection on pages AC73-AC79. All Bay Windows have dark solar privacy glass*. Most Bay Windows give you the option of either the standard black frame or the frame with a stainless steel accent stripe.

Driver's Side Forward

Driver's Side Rear

Passenger Side Rear

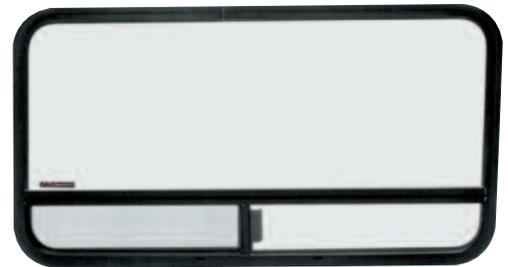

Door Windows

- **T-Slider and Fixed Glass Models**
- **Fully Contoured Dark Solar Privacy Glass***

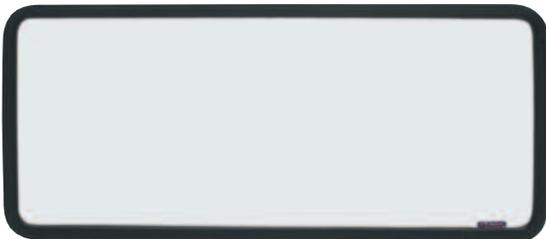

Side and Rear Door Windows are made to fit the full size '75-'91 Ford perfectly every time. The small radius corners and slim frame of our Door Windows enhance the appearance of all installations. Door Windows are available in Fixed and T-Slider configurations. Various clamp ring sizes are available to assist you in choosing the installation and appearance of your choice.

Van Door Windows increase visibility and provide light for cargo vans. They complement our Bay Windows when used as a complete installation.

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.

CRL VAN WINDOWS

1975 to 1991 Ford Full Size Vans

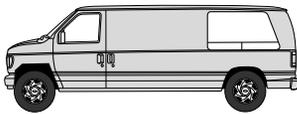

Need van windows for a Ford? CRL Van Windows provide improved ventilation and visibility. All have 28% dark solar privacy glass** and black finish frames (some with a stainless steel accent stripe). Using the charts below, you can easily choose the window size, style, and trim for your Ford van. If you don't find the exact size you are looking for, check our list of additional windows on pages AC73-AC79. **NOTE:** Always be aware of the clamp ring size for your application. Knowing this will reduce installation time, and help select additional materials or tools that may be required.

- **Dark Solar Privacy Glass****
- **Black Powder-Coated Frame**

NOTE: Cut-out dimensions are provided. To determine which window to order for replacement purposes, deduct 1-1/4" from the overall outside frame dimensions of your existing window to determine the cut-out size as shown on this page. All dimensions are taken at the longest point side-to-side and top-to-bottom.

CRL FORD TRANSIT CONNECT WINDOWS

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

CRL 2010+ Ford Transit Connect Windows

- Matches Factory Flush Look
- Contoured to Match Side and Door Stampings
- Dark Solar Privacy Glass

new

The newest thing in "All Glass Look" Windows is CRL's selection for 2010+ Ford Transit Connect Vans marketed in the U.S.A. They are the perfect accent to aerodynamic van styling with dark solar privacy glass that goes into the edge of the pinchweld for a flush look. Not only do they look good, these windows eliminate the blind spots that are a problem in vans with solid panels.

Door windows install with automotive urethane and primer, just like the original equipment glass. The silk-screened black fade edge conceals the urethane. Quarter Panel Windows install with a clamp ring on the pre-designed body stampings. All Windows are contoured to follow the door and quarter panels, making installation as simple as conventional windows.

- Contoured to Match Side Walls and Doors for a Factory Flush Look
- Dark Solar Privacy Glass With Silk Screened Black Fade Edge

Improve the looks of '78-'03 Full Size Dodge Vans with CRL's "All Glass Look" Windows. They are the perfect accent to aerodynamic van styling, with dark solar privacy glass that goes right to the edge for a flush look. Interior structural framing has a black powder-coat finish, concealed from outside view by the silk screened black fade edge of the glass. The entire unit is contoured to match the side wall or door, making installation as simple as conventional fully framed windows. Our T-Vent Bay Windows feature state-of-the-art opening panels for extra ventilation to van interiors.

CRL "All Glass Look" Van Windows are Available for Installation in Rear and Side Doors, Plus Driver and Passenger Side Panel Locations

NOTE: The dimensions shown for our Van Windows are "Cut-Out" sizes at the longest point, side-to-side and top-to-bottom. To determine their outer frame dimensions please refer to the table below.

VAN WINDOW SERIES	OUTER FRAME DIMENSION
FWXXXX	Add 1-1/4" to Cut-Out
VW1XXXX	Add 1-1/4" to Cut-Out
VW2XXXX	Add 1-1/4" to Cut-Out
VW3XXXX	Add 1-1/4" to Cut-Out
VW4XXXX	Add 3/4" to Cut-Out
VW5XXXX	Add 3/4" to Cut-Out
VW6XXXX	Add 3/4" to Cut-Out

- High-Tech "Aero" Look
- Dark Solar Privacy Glass
- Silk Screen Frit Edge
- Contoured to Match Van Walls

CRL offers "The Look" in our "All Glass Look" Van Windows for Dodge full size vans. OEM designs have encouraged our engineers to redesign the conventional van window, resulting in the "All Glass Look". Aluminum frames have durable black powder-coated paint finish. Pop-out vents complete the total package that your customers are demanding.

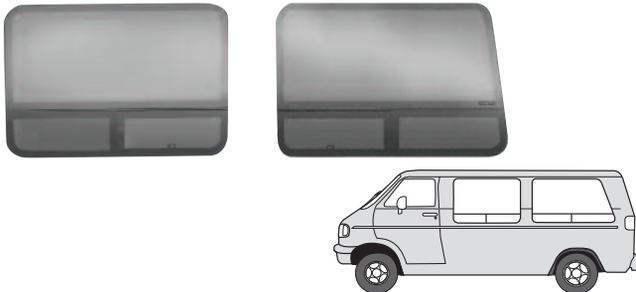

'78-'03 Dodge Full Size Vans

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.

NOTE: Cut-out dimensions are provided. To determine which window to order for replacement purposes, deduct 1-1/4" from the overall outside frame dimensions of your existing window to determine the cut-out size as shown on this page. All dimensions are taken at the longest point side-to-side and top-to-bottom.

- Optional Accent Frames
- T-Slider Bay Windows are Screened

NOTE: Because of their custom fit design, specific model applications are not interchangeable between van manufacturers.

CRL not only supplies you with state-of-the-art design "All Glass Look" Van Windows, but continues to supply the industry with the conventional framed windows that have been the industry standard for years. There are thousands of these Dodge vans on the road, and they all require a source for replacement windows. CRL is your source. Please reference the charts on the following pages to locate the window you need, or look at our complete list of van windows on pages AC73 to AC79.

Use CRL as Your Complete Source for New Conversion and Replacement Van Windows

The use of the original equipment manufacturer's emblems throughout this catalog is intended solely as a guide to product selection. It does not infer, and is not to be construed as, an affiliation between C.R. Laurence Company and these manufacturers, nor as an endorsement of their products.

CRL VAN WINDOWS

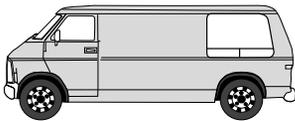

'78-'03 Dodge Full Size Vans

Whether you are adding windows for increased visibility, or doing a complete van conversion, CRL has the windows to complete the job. Using the charts below, you can easily choose the window size, style, and trim for your customer's van. If you don't find the exact size you are looking for, check our list of additional windows on pages AC73 to AC79.

- **Dark Solar Privacy Glass****
- **Powder-Coated Frames**

CRL UNIVERSAL FLAT SURFACE WINDOWS

- All Purpose Windows for Vans, Campers, RVs, Travel and Equipment Trailers, Livestock Trailers, Sleepover Cabs, or Just About Anywhere You Need a Quality Sliding Window
- Available in Stock Sizes or Custom Built to Order

Our Universal Flat Surface Windows are the 'all-purpose solution' to ventilate and increase visibility in just about any vehicle with flat walls. The frames are made of extruded aluminum with a black powder-coated finish. The metal is then formed to surround dark solar privacy glass. The sliding panel has a positive locking latch for security, and the ventilating panel is screened to let air in and keep bugs out. Universal handing lets you use them on the right hand, left hand or back side of the vehicle because built-in weep holes allow for proper drainage. Trim ring thickness options are 1-1/2" and 2-1/4". The 2-1/4" ring is reversible for 1/8" skin-mount applications. We offer three stock sizes of Vertical Lift Sliders, and four stock sizes of Horizontal Half Sliders. You also have the option of ordering custom sizes (see below). With this much versatility, it's easy to see why our Universal Flat Surface Windows are the 'all-purpose solution' to many of your window needs.

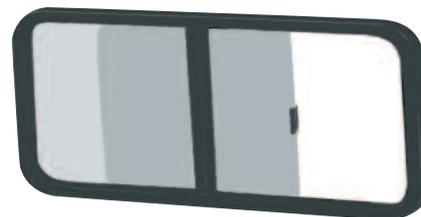

Vertical Lift Sliders

- Three Stock Sizes
- Dark Solar Privacy Glass**
- Metal Locking Latch
- Choice of Trim Rings

Horizontal Half Sliders

- Four Stock Sizes
- Dark Solar Privacy Glass**
- Metal Locking Latch
- Choice of Trim Rings

CAT. NO.	CUT-OUT		WALL

VW8409	40"	15-1/2"	*2-1/4"
VW8406	40"	15-1/2"	1-1/2"

Minimum order: 1 each. *Reversible trim ring for 1/8" wall applications.

Custom Sizes:

We can make Universal Flat Surface Windows to your custom specifications for size, format, glass color, and trim ring thickness. We welcome the opportunity to quote your requirements. Please contact CRL Automotive Sales by e-mail: automotive@crlaurence.com.

CRL UNIVERSAL VAN BAY WINDOWS

- T-Slider and Vertical Lift Slider Styles
- Contoured Black Finish Frames
- Standard 1/8" Interior Clamp Ring
- Dark Solar Privacy Glass**

Universal Van Bay Windows are made to fit various make and model vans, and allow you to choose from many shapes and sizes for replacement needs or for new installations. Our windows feature 15° sloped sills for superior drainage, dark solar privacy glass, and black powder-coated frames for long life. The modern flush fitting frames will enhance the appearance of any van, and because they are contoured to the curvature of the sidewall, installations are simplified and trouble-free.

CRL Driver's Side Rectangular T-Slider Windows

These T-Slider Windows fit either the driver's side forward or rear panel positions.

CAT. NO.	CUT-OUT

CRL UNIVERSAL VAN BAY WINDOWS

- **Stainless Steel Accent in Black Finish Frame**
- **T-Slider and Vertical Lift Slider Styles**
- **Standard 1/8" Interior Clamp Ring**
- **Dark Solar Privacy Glass****

Universal Van Bay Windows with Accent Frames offer you the best looking van windows for your customer. The stainless steel insert will not rust or fade over the life of the window. Standard 15° sloped sill and black powder-coated frames provide long lasting beauty and operation. These windows will fit a variety of vans because of their universal contour. If you are looking to replace an existing window, or using them in a conversion van, you should find the size you need below.

CRL Driver's Side Rectangular T-Slider Windows

These windows are 90° angled, and fit either the driver's side forward or rear panel positions.

Minimum order: 1 each. **Note:** Custom sizes will be quoted on request.

CRL Horse Trailer Windows and Guards

Horse Trailer Windows have black frames, standard dark solar glass, and fixed fiberglass screens. All Horse Trailer Windows are universal (left hand or right hand) with 1-1/2" wall thickness, and are fitted with conventional outside pull handles. The Interior Trim Ring is also reversible for 1/8" skin mount applications.

Horse Guards are internal clamp rings fitted with 1/2" diameter tubing, and are designed to fit our Horse Trailer Side Sliders. Inside security latch provided for optional use.

CRL COMMUTER VAN AND MASS TRANSIT BUS WINDOWS

C.R. Laurence manufactures a complete line of Commuter Van/Mass Transit Bus Window designs. We make Top T-Sliders, Horizontal Sliders, Vertical Sliders, and Fixed Windows for primary installation. All C.R. Laurence Commuter Windows have sturdy frames with 15° sloped sill for improved drainage. On the Top T-Slider the horizontal mullion also has a 15° sloped sill ensuring that whichever configuration of window is required, leakage is not going to be a problem. C.R. Laurence excels at making custom sizes to your specifications at production prices and reasonable lead times. We welcome the opportunity to bid your requirements.

CUSTOM MADE TO YOUR SPECIFICATIONS FOR SIZE AND FIT

CRL Top T-Sliders

These windows are available with either a 3" or 3-1/2" corner radius when used as standard installation.

CRL Horizontal Sliders

Horizontal Sliders for sliding doors or sidewall panels are available with or without sliding screens. They are also available with many choices of glass colors.

CRL Vertical Sliders

Vertical Sliders for hinged doors or sidewall panels. A choice of glass colors is available.

Contact CRL Automotive Technical Sales for our Custom Window Quote Form at (800) 421-6144 (U.S.), (877) 421-6144 (Canada), or (323) 588-1281 (International). Ask for Extension 7780. The Solution to All
Your Vehicle Window Procurement Problems

CRL VAN ACCESSORIES

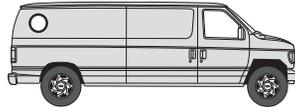

CRL Custom Van Porthole

- The Classic Van Accessory
- Glazed with Tinted Tempered Glass

Custom Van Portholes give vans a classic look. They install in either 1/8" or 1-1/2" thick van walls, and their black finish aluminum frames yield a professionally installed look. This traditional porthole design is available in 31% tinted tempered flat glass.

CAT. NO.	SIZE	WALL
11035S	12" Circle	1/8" or 1-1/2"

Minimum order: 1 each.

CRL Draco Metal Shears

- Excellent for Van Window Cut-Outs

The Draco Shear is designed to cut light to medium gauge sheet metal without distortion. This is an excellent choice for van window installations because tight radius corners are no problem for this quality tool.

CAT. NO.	DESCRIPTION
SD5	Heavy-Duty Metal Shears
SD5BL	Replacement Blade
SD5JW	Jaw Set

CAPACITIES
Sheet Metal: 19 Gauge
Stainless Steel: 24 Gauge
Non-Ferrous Metal: 17 Gauge

Minimum order: 1 each.

CRL Seat Belts

- Available in Three Lengths

Our Seat Belts are extra long to accommodate custom van seats. Seat Belts have push-button mechanisms for quick fastening and easy release. Best of all, they conform to SAE-J-4C and all federal motor vehicle standards, so you can install them with confidence.

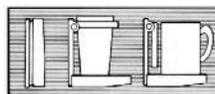

CAT. NO.	COLOR	LENGTH
FK65060BL	Black	60"
FK65074BL	Black	74"
FK650110BL	Black	110"

Minimum order: 1 each.

CRL Cup Holder

- Fold Away to Less Than 1" Thick

Our Folding Cup and Can Holder secures drinks while the vehicle is moving. Cup and Can Holder opens easily with one hand and folds away to less than 1" thick. Mount to door or dash panels with rivets or screws. Overall size: 3-3/4" x 4".

CAT. NO.	COLOR
CUP1	Black

Minimum order: 1 each.

CRL Plexi-Dome Roof Vent

- Excellent for RV's, Campers and Vans
- Transparent, Smoke Colored Dome

The Plexi-Dome Roof Vent has a sturdy, low profile plexiglas dome that is a transparent smoke color and has a built-in screen. Easily installed in vehicle roof.

CAT. NO.	DESCRIPTION
V209235	14" x 14" Smoke Dome Vent

Minimum order: 1 each.

CRL Van Vents

- Fits Almost Any Van, Camper or RV

This Van Vent fits in a 14" x 14" hole, and is hinged on the leading edge to allow air circulation. Crank-type operator lifts white plastic lid from closed to a 45° position. Built-in screening keeps insects out. Interior and exterior trim rings are a cream color that can be painted to match the vehicle.

CAT. NO.	DESCRIPTION
V209234	14" x 14" Van Vent
V209437	14" x 14" Van Vent with Built-in 12 Volt Fan

Minimum order: 1 each.

CRL Door Pulls

- Available in Four Colors

Our Door Pulls have a steel inner core for strength, and a vinyl outer cover for durability. Woodgrain vinyl trim strip and snap-on screw covers accent this attractive accessory.

CAT. NO.	COLOR	LENGTH
DP11BLU	Blue	12-1/4"
DP11BL	Black	12-1/4"
DP11S	Silver	12-1/4"
DP11T	Tan	12-1/4"

Minimum order: 1 pair. Sold only by the pair.

CRL SUNROOFS

The Stretch Forming Corporation and CRL Sunroof Alliance

The Worldwide Symbol for Sunroof Excellence

Stretch Forming Corporation and C.R. Laurence formed an alliance to provide the aftermarket with industry leading sunroofs. Stretch Forming Corporation (SFC) has led the evolution of the sunroof industry for over 30 years, and has developed many major sunroof innovations, including high performance, glare-reducing glass, superior UV protection, and bonded glass.

SFC was the first sunroof company to address the special roof configuration of today's aerodynamic styling. Every item in the SFC/CRL Sunroof product line is designed to offer superior quality, easy installation, and years of trouble-free operation. Together with our network of warehouse locations and tremendous inventory, this alliance offers the best of both worlds.

Our manufacturing facilities are located in Vernon, California, where our automotive products are manufactured under the most strict standards. C.R. Laurence Automotive Products is a supplier to several Original Equipment Manufacturers, as well as many of the glass industry's major distributors.

CRL AutoPort

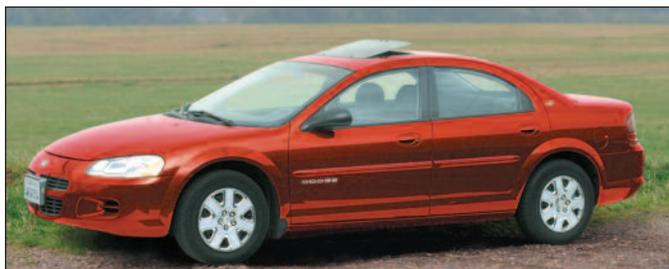

The AutoPort Sunroof is known in the industry for its unsurpassed fit and finish, offering the highest quality at a conservative price. Perfect for replacement of older sunroofs as well as new installations. The AutoPort's traditional design with flush fit and high performance solar glass will provide you with a good looking sunroof at an affordable price. See pages AC90-AC91.

CRL NewPort

If you are looking for that OEM look for fit and finish, NewPort is the sunroof. The NewPort Series offers six different sizes to fit the largest percentage of vehicles. NewPort features a curved leading edge, low profile framework, positive locking Bio-Mechanical Latch,

easy glass removal and replacement, and of course, high performance glass with 92% ultraviolet protection. With all of these features, it's no wonder that each year more NewPort Sunroofs are installed than any other pop-up sunroof in America. See pages AC88-AC89.

CRL SUNROOFS

CRL Genesis

The Genesis Sunroof is just like the name implies, a new beginning. The Genesis has all the features that will create an OEM look, plus hidden hinge and latch hardware. Using bonded technology, the engineers at SFC/CRL have created the first sunroof to feature glass with completely bonded hardware, allowing for no exposed buttons. This breakthrough technology allows for a smooth, uninterrupted exterior glass finish with no latch or hinge hardware covers, giving the look of a power sunroof at a pop-up price. The patented Cam-Lock System makes installations a breeze, and the interior of the vehicle is kept cool with high performance glass that offers 92% ultraviolet light protection. See pages AC92-AC93.

CRL Electric Spoiler Sunroofs

Want an electric powered sunroof? The ES Series of Electric Spoiler Sunroofs is the top choice for installers and vehicle owners. Easy installation and OEM finish provides you with everything you could want in an electric sunroof. High performance dark tint solar privacy glass lets the sun shine in while maintaining interior comfort. Our ES Series Electric Spoiler Sunroofs are offered in two sizes, 18" x 31" and 20" x 32". ES100 and ES300 models include a retractable sunshade, while the 20" x 32" ES500 comes standard with the Variolite® Sliding Sunshade. See pages AC94-AC95.

CRL Specialty Sunroofs

Special needs require special applications. SFC/CRL covers the bases with a variety of sunroofs that address specific makes and models. Jeep Cherokees require a sunroof with special "indents" in the upper surface to go over the roof ridges. Trucks and Vans with center overhead consoles limit the space to install a single sunroof. His 'N Hers Sunroofs, which can be installed in varying positions, solve that difficult problem. Our Specialty Sunroofs feature exact tolerances, cosmetic appeal and, of course, our high performance glass with 92% ultraviolet light protection. See page AC87.

CRL Sunroof Parts

We have a large selection of replacement parts for many different brands of sunroofs. Whatever you need, a replacement glass panel, front hinges, rear latches, trim rings or gaskets, the CRL Automotive Technical Sales Department is at your service to find the right part to repair your sunroof. See page AC96.

Two words describe the His 'N Hers Sunroof: versatile and practical. The compact 17" x 17" size makes this sunroof the perfect choice for use as either a single or double unit. Placed side by side, they offer installation flexibility, as well as separate control of ventilation for individual comfort. The high performance solar glass can be removed easily for the exhilaration of "open-top" driving.

The factory styling of this sunroof is also popular with van enthusiasts. Single units can be installed over the back portion of the vehicle to illuminate and ventilate the rear compartment. Trucks and vans with center overhead consoles limit the space to install a single sunroof. Our His 'N Hers Sunroofs are the solution.

CRL Jeep Cherokee Sunroof

- Specially Designed Frames to Go Over Roof Ridges of the '91 to '01 Cherokee
- Solar High Performance Glass

1991 through 2001 Jeep Cherokee, requires a special sunroof with indents to go over the roof ridges. This AutoPort Sunroof meets those requirements while maintaining all of the quality features that make the AutoPort so popular. Solar high performance glass provides 92% UV protection. The extruded aluminum frame has a black powder-coated paint finish, extruded 100% silicone sponge seal, and a three position handle.

CRL SUNROOFS

CRL NewPort Sunroofs

- High Performance Glass With 92% U.V. Protection
- Bio-Mechanical Latch
- Sizes for All Applications

NewPort Sunroofs offer the widest variety of sizes, contours and shapes. The bowed front follows the windshield shape to perfection, and the tight radius of the corners fulfill the expectations of even the most sophisticated customer for that OEM look.

All NewPorts feature high performance glass that provides 92% Ultraviolet protection, and the easy-to-operate Bio-Mechanical Latch for instant opening or closing. Six sizes of NewPort Sunroofs are available, from the 14" x 32" that fits most smaller cars, all the way up to the massive 22" x 38" NewPort that is perfect for so many full size pickups, SUV's, and vans. Whatever the vehicle, there's a NewPort that is just right for it.

The Worldwide Symbol for Sunroof Excellence

- 22" x 38" and 16" x 36" Models are Ideal for Trucks
- The Perfect Styling Touch for Custom Pickups and SUV's

Two of the NewPort models are ideal for trucks. The biggest NewPort, measuring a full 22" x 38", fits most popular pickups, SUV's, and vans. The 16" x 36" NewPort fits the Dodge Ram and Ford Ranger pickups perfectly because the roof braces of these trucks would interfere with a larger sunroof. Both sizes offer truck owners all the features found in every NewPort Sunroof.

- Ideal for the Aerodynamic Design of Modern Vehicles
- Easy to Remove Glass Panel
- Dual Contoured to Offer the Best Fit

New trends of vehicle design have created highly curved exterior body panels. They are prime applications for our Dual Contoured NewPort Sunroofs. The dual contoured 18" x 28" NewPort model fits new and old Volkswagen Beetles, as well as Mustangs. The dual contoured 20" x 32" is a great application for vehicles like the Ford Focus and Chevrolet Malibu.

CRL SUNROOFS

CRL NewPort Sunroofs

- **Contemporary Radius Corner Design With Curved Leading Edge**
- **Six Sizes to Fit Most Cars, Trucks, SUV's, and Vans**
- **Dual Contour Frames and Glass on 18" x 28" and 20" x 32" Models**
- **Flush Fitting Frame With Weather-Tight Silicone Seal**
- **Bio-Mechanical Latch With Two Opening Positions**
- **Solar High Performance Glass Provides 92% U.V. Protection**

From small economy models to high-end cars and trucks, NewPort Sunroofs are the answer. The installation of NewPort Sunroofs is simple. Shipped assembled and ready to install, the Universal and Molded trim rings provide numerous installation trim options. The aluminum spacer within the Universal trim ring provides better compression between the sunroof and the car body. The Molded trim ring comes with styrofoam spacers that hold the headliner tightly against the inside trim ring. From the 14" x 32" to the 22" x 38", and everything in between, the curved leading edge, low frame-to-body profile, and contemporary corner design of a NewPort Sunroof follows vehicle lines to perfection.

The Worldwide Symbol for Sunroof Excellence

The Solar High Performance Glass used in all NewPort Sunroofs provides 92% U.V. protection. It's also easy to remove for that "top down feeling". 18" x 28" and 20" x 32" Dual Contour models conform to the round roof lines of today's most popular vehicles.

CRL SUNROOFS

CRL AutoPort Sunroofs

The Worldwide Symbol for Sunroof Excellence

- **Classic Straight Front Design Popular With Installers for More than 24 Years**
- **Universal Fit for Most Vehicles**
- **OEM Finished Appearance**
- **Increased Ventilation**

- **Durable Truck-Tough Design**

The AutoPort line delivers remarkable quality with superior fit, finish and function, and represents the finest balance of value and quality in the sunroof industry.

Versatility and economy are offered in the traditionally designed AutoPort Sunroof. Both universal and molded trim rings can be adapted for a "tuck and roll" or conventional "quick fit" installation. Both methods will give the customer the look of an OEM finish on his or her vehicle.

- **Clear View High Performance Glass That is Easy to Open or Remove**

CRL SUNROOFS

CRL AutoPort Sunroofs

- Traditional Design Replaces Most Other Sunroofs on the Market
- Solar High Performance Glass Provides 92% U.V. Protection
- Glass Can Be Quickly and Easily Removed
- Flush Fitting Frame With Weather-Tight Silicone Seal
- Latch Has Two Open Positions

With its contemporary and traditional design, the AutoPort Sunroof is ideal for car, truck or van applications. It features flush fitting high performance solar glass that is easily removed and replaced, providing 92% U.V. protection. The interior trim ring can be installed under or over the headliner, depending on the application or customer preference.

CRL SUNROOFS

Electric or Pop-Up? It's a Genesis!

- **The First Sunroof With Completely Bonded Hardware Allowing for No Exposed Buttons**
- **The Look of a Power Sunroof at a Pop-Up Price**
- **Three Sizes to Fit a Wide Variety of Vehicles**

The Genesis Sunroof is just like the name implies, a new beginning. The Genesis has all the features that will create an OEM look, plus hidden hinge and latch hardware. Using bonded technology, the engineers at SFC have created the first sunroof to feature glass with completely bonded hardware, allowing for no exposed buttons. This breakthrough technology allows for a smooth, uninterrupted exterior glass finish with no latch or hinge hardware covers, giving the look of a power sunroof at a pop-up price. The patented Cam-Lock System makes installations a breeze, and the interior of the vehicle is kept cool with high performance glass that offers 92% ultraviolet light protection.

The Worldwide Symbol for Sunroof Excellence

CRL SUNROOFS

CRL Genesis Sunroofs

The Genesis is an entirely new class of sunroof, offering the easiest of pop-up installations. Genesis brings sunroof style and installation to a new level. Features unlike any other sunroof combine the upscale appearance of an in-built, with the ease of installation of a pop-up. This is the ideal sunroof for consumers who want the best of both worlds.

Genesis comes ready for quick, fully wrapped headliner installation with a patented Cam-Lock System that gives a positive clamping between the frame and vehicle roof. The bonded glass and ultra-thin exterior frame provide the look of an expensive in-built sunroof at a price everyone can afford. Genesis is the ideal sunroof for any application.

- **Bonded Glass Design With No Exposed Hardware**
- **Solar High Performance Glass Can Be Completely Removed, and Provides 92% U.V. Protection**
- **Bio-Mechanical Latch With Two Opening Positions**

CRL SUNROOFS

CRL Electric Spoiler Sunroofs

- **Illuminated Switch Gives Convenient Push-Button Electric Open and Close Operation**
- **Adds Value, Luxury, and Style to Any Car or Truck**
- **Extremely Low Profile With No Exposed Exterior Hardware**

The convenient design and function of the CRL Electric Spoiler Sunroof offers multiple positioning of the flush, factory-style tempered safety glass. With just a touch of the illuminated switch, the CRL Electric Spoiler Sunroof can be vented, closed or opened up to 12-1/4". With its built-in air deflector and flush-mount, thin line frame, this CRL Sunroof is a plus for any vehicle.

Dark tint solar privacy glass lets the sun shine in while maintaining interior comfort. Our 20" x 32" model ES500 has a built-in Variolite® Sunshade that slides open and shut, allowing fresh air to enter while keeping sunlight out.

Our ES100 and ES300 models have all of the great features of the ES500. The retractable sunshade is concealed when not in use. The ES300 is the same size as ES500, while the 18" x 31" ES100 is a great choice for narrow rooflines and compact vehicles. Whichever size you choose, CRL Electric Spoiler Sunroofs are an excellent alternative to factory-installed electric sunroofs.

Variolite® Sunshade in full open position.

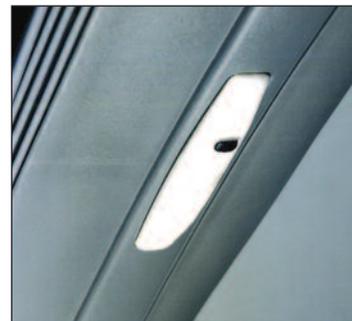

Variolite® Sunshade shown closed with European Trim Finish

Retractable Rolling Sunshade

Our fully retractable and concealed Sunshade is included for both sizes of CRL Electric Spoiler Sunroofs.

Optional Dome Lamp

Optional Dome Lamp incorporates a built-in switch for convenient operation, and is integrated into the inner trim for a factory finished appearance.

CRL SUNROOFS

CRL Electric Spoiler Sunroofs

- Dark Tint Solar Privacy Glass
- Multiple Position Flexibility
- Two Sizes to Fit Most Any Vehicle

20" x 32" Model

18" x 31" Model

Roof In Closed Position

With the bonded solar privacy glass in the closed position, CRL Electric Spoiler Sunroofs provide a flush-to-the-roof factory appearance.

Roof In Full Open Position

The glass panel retracts over 70%, providing one of the largest openings available, to assure your maximum enjoyment of the sun and open air.

Roof In Vent Position

CRL Electric Spoiler Sunroofs vent to a maximum height of 1-7/8", providing flow through ventilation to achieve just the right amount of fresh air.

Sunshade Ventilation

The Variolite® Sunshade System on the ES500 allows for flow through ventilation with the glass in vented or full open position, while allowing only the desired amount of direct sunlight for your enjoyment and convenience.

CRL SUNROOFS

CRL Trim Ring for AutoPort, NewPort, and His 'N Her Sunroofs

Our engineers have designed all SFC/CRL Sunroofs with features that allow you to tuck the headliner fabric into the frame for that OEM look. That makes them easy to install, and the results will please even your most demanding customers.

Universal Trim

Universal trim ring with multiple peel away options allows highest degree of installation flexibility.

Molded Trim

Speeds and simplifies installation on hard or thick molded headliner. Allows further flexibility with installation approach.

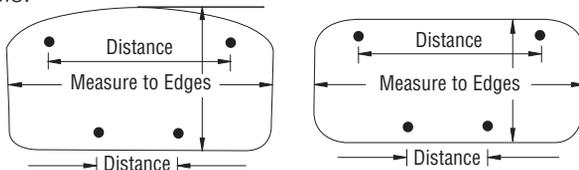

Van Trim

New "modified" van trim ring for deep headliner or panel. Features metal-to-metal contact, eliminating the need for blocking.

CRL Sunroof Replacement Parts Service

We maintain a complete inventory of replacement parts for CRL/SFC Sunroofs, as well as for many other brands. When ordering replacement parts it is extremely important to have the following information: sunroof part number (if available), brand of sunroof, overall size of sunroof, straight front edge or curved, description of hardware, glass size and type (solar, reflective, dot matrix pattern, etc.), distance between outer hardware on glass, and any other information available.

At right we have shown examples of how and where to measure for the required information.

CRL Sunroof Installation Tools

CRL Heavy-Duty Air Nibbler

- Cuts Up to 18 Gauge Metal
- Efficient and Powerful
- Easy to Operate and Control

Get a bigger bite and better angle cuts with CRL's Heavy-Duty Air Nibbler. Instead of shearing or sawing, this tool actually "nibbles" aluminum, cold rolled steel, plastics, and an assortment of other metals up to 18 gauge thickness. It will not distort the edges of material being cut, and is designed so you can start cuts in the center of a panel and hold a tight 1/4" radius with great accuracy. 90 P.S.I. required.

CAT. NO.	DESCRIPTION
AK80TOOL	Heavy-Duty Air Nibbler

Minimum order: 1 each.

CRL Bosch Unishear

- A Super Tool for Sunroof Cut-Outs
- Cuts Up to 14 Gauge Metal at 5,000 Strokes Per Minute
- Cuts Aluminum, Mild and Stainless Steel Quickly and Efficiently

The Bosch Unishear Tool is a lightweight, easy-to-manuever electric shear for mild and stainless steel, and aluminum. Small in size and well balanced, it is designed to cut up to 14 gauge metal efficiently and quickly at up to 5,000 strokes per minute. The cutting head allows full visibility of the blade so that the intended cut-out can be made precisely on the template markings. This is especially helpful when using Unishear for sunroof cut-outs, where tolerances must be exact. Unishear is double insulated for operator safety, and plugs into grounded 115V AC outlets. Tool Capacities - Mild Steel: 16 gauge; Stainless Steel: 18 gauge; Aluminum: 14 gauge.
